Storage Made Easy

Steel Lockers

Lockers shown in custom color

Welded and Unassembled Lockers

1. **Heavy-Duty Frame and Door**
   Welded frame and door is constructed of 16-gauge steel for added rigidity.
2. **Door Stiffeners***
   Steel door reinforcements add rigidity and dampen noise.
3. **Locking Bar***
   Steel locking bar offers strength, while spring actuated latches provide secure and quiet latch operation.
4. **Double Leaf Five-Knuckle Hinge**
   Extra-strong five-knuckle hinge with secured pin offers security, easy operation and long life.
5. **Available Welded**
   Electric resistance welded housing for added strength and cleaner appearance.
6. **Available Unassembled**
   Knock down version saves on shipping costs.
7. **Recessed Handle***
   Inset handle design allows padlocks to be recessed rather than protruding into aisles, increasing vandal-resistance.
8. **Shelf Design**
   Triple bend on front flange for added safety.
9. **Hat Shelf***
   Handy shelf for personal storage of hats, gloves, toiletries, books, etc. Available on Single Tier Lockers only.
10. **Louvers**
    Full width, contemporary styled louvers at top and bottom. Number of louvers increase with door width for improved ventilation of larger locker sizes.
11. **Rubber Bumpers**
    Door closing noise is effectively dampened with carefully placed bumpers.
12. **Choice of Leg Options**
    Lockers available with or without legs. Optional front- and end-bases available to enclose base. Use a closed base for lockers without legs.
13. **Durable Finish & Large Color Selection**
    Tough, powder-coated finish keeps its good looks for years. Colors are available to complement any setting.

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.
*Does not apply to box lockers.

QUIET OPERATION

Clanking lockers are distracting. That is why Tennsco lockers contain noise reducing features: noise dampening door stiffeners to reduce vibration, rubber door bumpers and a polymer locker latch.

BUILT TO LAST

Whether it is a school, industrial or office setting, Tennsco's unique locker construction stands up to years of the toughest use, yet keeps functioning like new.

SECURE AND SAFE

Lockers hold more than just clothing — they also protect valuables. Tennsco lockers contain vandal resistant features: recessed handles that cannot be kicked-off and positive latching mechanism to ensure that the door is shut.

Quiet Lockers – The Strong, Silent Type

Tennsco lockers are built to be durable – and quiet. The heavy-duty steel construction stands up to the toughest use, while rubber bumpers, door stiffeners and locking channels, cushioned with rugged polymer materials, work together to virtually eliminate that old clanging and banging.

All latching mechanisms are lightweight and low-friction, which allows for easier and smoother opening. Locker handles are recessed inside the door face, not only giving a smooth, finished look, but also making Tennsco lockers vandal resistant and safer than easily broken, protruding handles.

Tennsco lockers are available in an assortment of colors to blend in with conservative designs or stand out as part of a bold color scheme. The high grade powder-coated finish will maintain its crisp good looks through years of everyday use.

SINGLE TIER LOCKERS

Single Tier Lockers are roomy enough for just about any secured storage application. Single Tier Lockers are our most popular general purpose locker, ideal for factories, schools, hospitals, and other locations where coats and clothing are stored.

- Opening widths of 12”, 15”, 18”, or 24”*
- Locker depths of 12”, 15”, 18”, 21”, or 24”*
- Available in single or three-wide units
- Available welded or unassembled
- Three coat hooks per opening, plus coat rods on lockers 18" and deeper
- Positive 3 point locking system in doors
- Available with or without legs
- Three wide units with legs use four rear legs for support
- Flush louvers for ventilation
- Door stiffeners add rigidity
- Built-in top shelf for lunches, hats, etc
- Doors available in a variety of styles including standard, ventilated and C-Thru

*Refer to price list for specific combinations.

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

DOUBLE TIER LOCKERS

Double Tier Lockers feature two openings per locker, giving you twice as many lockers in the same space as single tier, yet providing plenty of hanging room for shirts and jackets. Perfect for the gym.

- Opening widths of 12" or 15"*
- Locker depths of 12", 15" or 18"*
- Available in single or three-wide units
- Available welded or unassembled
- Three coat hooks per opening
- Positive 2 point locking system on doors
- Available with or without legs
- Three wide units with legs use four rear legs for support
- Flush louvers for ventilation
- Door stiffeners add rigidity
- Doors available in a variety of styles including standard, ventilated and C-Thru

*Refer to price list for specific combinations.

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

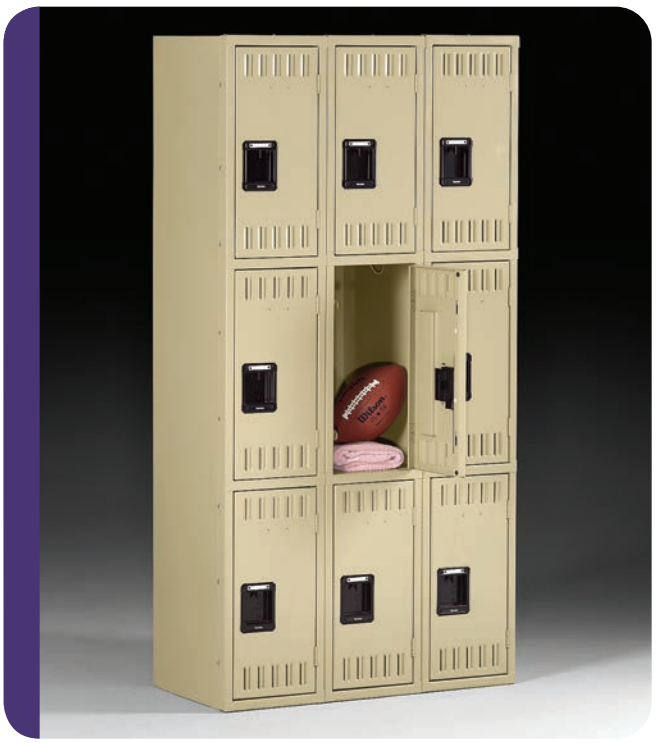
TRIPLE TIER LOCKERS

Triple Tier Lockers are ideal for health clubs, gymnasiums, and other applications where ample storage must be balanced with space savings. These units fit three times as many lockers in the space of a Single Tier Locker and feature:

- Opening widths of 12" or 15"*
- Locker depths of 12", 15" or 18"*
- Available in single or three-wide units
- Available welded or unassembled
- Three coat hooks per opening
- Positive 2 point locking system on doors
- Available with or without legs
- Three wide units with legs use four rear legs for support
- Flush louvers for ventilation
- Door stiffeners add rigidity
- Doors available in a variety of styles including standard, ventilated and C-Thru

* Refer to price list for specific combinations.



Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

BOX LOCKERS

Tennsco Box Lockers are ideal for securely storing smaller items like purses, lunches, books, and athletic gear. The efficient five and six tier configurations give schools, clubs, and hospitals the necessary storage capabilities without taking up valuable floor space.

- Opening widths of 12" or 15" wide*
- Box depths of 12", 15", or 18"*
- Available in 5 or 6 high
- Available in single or three-wide units
- Available welded or unassembled
- Optional built-in lock
- Available with or without legs
- Three wide units with legs use four rear legs for support
- Rugged padlock hasps
- Flush louvers for ventilation
- Doors available in a variety of styles including standard, ventilated and C-Thru

*Refer to price list for specific combinations.

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

16 PERSON LOCKERS

Get all the benefits of economical Box Lockers plus the advantage of hanging space for full length garments. This efficient design can accommodate sixteen people per unit – an ideal alternative when full length storage and tight space are primary considerations.

- 16 openings, 12" wide x 12" high x 18" deep
- Available welded* or unassembled
- Coat rod included - 47 ⅞"
- Optional built-in locks
- Available with or without legs
- Rugged padlock hasps
- Flush louvers for ventilation
- Doors available in a variety of styles including standard, ventilated and C-Thru

*Minimal assembly required to connect middle section and coat rod.

COMBINATION LOCKERS

When you need maximum storage space, you want the Tennsco Combination Locker. This deluxe, multi-purpose unit features a full width top shelf, five individual storage compartments and room for full length hanging garments.

- Single unit only, 18" or 24" wide x 21" deep
- Welded only
- Coat hooks and coat rod
- Positive 3 point locking system on doors
- Available with or without legs
- Flush louvers for ventilation
- Door stiffeners
- Optional built-in lock

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

ADA COMPLIANT LOCKERS

Tennsco ADA Compliant Lockers are specifically designed to provide easier access to contents from a seated position. This is achieved through coat hooks, an upper shelf at a reduced height and the special ADA compliant key cap, which increases the size of the key head making it easier to grip and turn, allowing for single-handed operation.

Tennsco's ADA Compliant Lockers are available in single tier, the bottom locker of a double tier, or the bottom two lockers of a triple tier.

These ADA Compliant Lockers are shipped with the universal handicap symbol.

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

Ventilated Lockers

1. **Perforated Body**
   Perforated locker body ensures continuous airflow for maximum ventilation of clothing, etc. while providing complete visibility to contents.
2. **Heavy-Duty Body, Frame and Door**
   Body*, frame and shelf are constructed of 16-gauge steel and door is constructed of 14-gauge steel for durability.
3. **Heavy-Duty Shelves**
   16-gauge locker shelves offer plenty of strength to hold various items.
4. **Positive Latching Mechanism****
   Smooth operating latching mechanism securely latches the door for added security.
5. **Locking Bar****
   Steel locking bar offers high strength, while polymer latches and retainers provide quiet latching operation.
6. **Heavy-Duty Knuckle Hinge**
   Extra-strong five-knuckle hinge with secured pin offers added content protection and long life.
7. **Recessed Handles****
   Inset handle design is vandal-resistant and leaves nothing protruding into aisles. Comes standard with powder-coated finish; optional stainless steel is also available.
8. **Shelf Design**
   Triple bend on flange offers added safety.
9. **Hat Shelf****
   Handy shelf for personal storage of hats, gloves, toiletries, books, etc. Available on Single Tier lockers only.
10. **Rubber Bumpers**
    Door closing noise is effectively dampened with carefully placed bumpers.
11. **Choice of Leg Options**
    Lockers available with or without legs. Optional front- and end-bases available to enclose base. Use a closed base for lockers without legs.
12. **Durable Finish & Large Color Selection**
    Tough powder-coated finish keeps its good looks for years. Colors are available to complement any setting.

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.
* Back of body is 18-gauge
** Does not apply to box lockers.

SUPERIOR VENTILATION CAPABILITY

Three-sided locker ventilation offers continuous airflow to help prevent odor-causing bacteria. Ideal for settings involving physical exertion like gyms or factories.

VISIBILITY OF CONTENTS

Ventilation openings provide added security by allowing visibility of locker contents.

WELDED CONSTRUCTION

Tennsco Ventilated Locker panels are constructed of heavy-duty steel for complete rigidity.

Ventilated Lockers– A Breath of Fresh Air

Tennsco Ventilated Lockers keep aisle ways and rooms free from stale odors caused by damp clothing. Specially designed diamond-shape ventilation openings ensure continuous airflow from all three sides of the locker. This reduces the opportunity for odor-causing bacteria to grow. Ventilated Lockers also offer interior visibility, making it easy to identify undesirable contents.

Tennsco lockers are designed for smooth and easy operation. Locker handles are recessed inside the door face, making Tennsco lockers vandal resistant and safer than easily broken protruding handles.

Tennsco lockers are available in an assortment of colors to blend in with conservative designs or stand out as part of a bold color scheme.

SINGLE TIER VENTILATED LOCKERS

Single Tier Ventilated Lockers are roomy enough for just about any secured storage application. Single Tier Lockers are ideal for use in factories, schools, fitness clubs, hospitals, and other locations where clothing is stored.

- Opening width of 12"
- Locker depth of 18"
- Available in single or three-wide units
- Available welded only
- Three coat hooks and a coat rod per opening
- Positive 3-point locking system in doors
- Available with or without legs

DOUBLE TIER VENTILATED LOCKERS

Double Tier Lockers feature two openings per locker for twice the number of lockers in the same space. There is plenty of hanging room for shirts and jackets. Perfect for the gym.

- Opening widths of 12"
- Locker depth of 18"
- Available in single or three-wide units
- Available welded only
- Three coat hooks per opening
- Positive 2-point locking system in doors
- Available with or without legs

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

BOX VENTILATED LOCKERS

Box Lockers are ideal for securely storing smaller items like purses, lunches, books and athletic gear. Six-high configurations save valuable floor space in schools, clubs, and hospitals.

- Opening size of 12" wide x 12" high
- Box depth of 18"
- Available in single or three-wide units
- Available welded only
- Rugged padlock hasps
- Available with or without legs
- Six-tier high configurations

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

C-Thru Lockers

1. **Clear Door Panel**
   Clear yet strong acrylic doors offer visibility of locker contents for security reasons.
2. **Secure Acrylic**
   Secure acrylic door panels are positioned in steel channels and riveted to maintain the door's integrity.
3. **Heavy-Duty Frame**
   Welded door frame is constructed of 16-gauge steel for added rigidity.
4. **Locking Bar***
   Steel locking bar offers strength, while spring actuated latches provide secure and quiet latch operation.
5. **Heavy-Duty Knuckle Hinge**
   Extra-strong five-knuckle hinge with secured pin offers added content protection and long-life.
6. **Vandal Resistant Handle***
   Recessed handle design on steel doors with visual door panels is vandal-resistant.
7. **Shelf Design**
   Triple bend on flange offers added safety.
8. **Hat Shelf***
   Handy shelf for personal storage of hats, gloves, toiletries, books, etc. Available on Single Tier lockers only.
9. **Rubber Bumpers**
   Door closing noise is effectively dampened with carefully placed bumpers.
10. **Choice of Leg Options**
    Lockers available with or without legs. Optional front- and end-bases available to enclose base. Use a closed base for lockers without legs.
11. **Durable Finish & Large Color Selection**
    Tough powder-coated finish keeps its good looks for years. Colors are available to complement any setting.

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.
*Does not apply to box lockers.

C-Thru Lockers– A Look Inside

In today's world, security has become a central issue to ensure that buildings are safe to all occupants. A priority to bringing this degree of safety is offering visibility to the contents of a locker.

And, thanks to Tennsco's vandal resistant locking bar, knuckle leaf hinge and positive latching mechanism, contents are safe from potential theft.

VISIBILITY OF CONTENTS

Contents of lockers are clearly visible without the need to open the locker. Ideal for public locations, gym locker rooms, factories and more.

GREATER STRENGTH

For single or double tier lockers, the C-Thru acrylic is mounted to the doors using full length steel channels on both sides, then securely riveted to maintain the door's integrity. Box lockers offer Polypropylene doors that incorporate corner-to-corner reinforcements for added strength.

SINGLE TIER C-THRU LOCKERS

Single Tier Lockers are our most popular locker. Their roomy interior allows storage for a host of items including articles of clothing, sports equipment, valuables and more! Plus, in today's security minded atmosphere, these lockers can be visually inspected without the need to actually open the locker. Perfect for public places like airports, government buildings, factories, schools, fitness clubs, hospitals or any other building that needs added security.

- Opening size of 12" wide
- Locker depths of 12", 15" or 18"
- Available in single or three-wide units
- Available welded only
- Three coat hooks per opening, plus coat rods on lockers 18" and deeper
- Heavy-Duty acrylic door inserts
- Positive 3-point locking system in doors
- Available with or without legs

DOUBLE TIER C-THRU LOCKERS

Double Tier Lockers offer an advantage in that twice the number of lockers can be placed in the same space as single tier lockers. Each locker has plenty of hanging space for jackets and shirts thanks to three preinstalled coat hangers. For added security, the acrylic door inserts allow contents to be viewed without the need to open the door. Positive 2-point locking system in the door secures contents.

- Opening size of 12" wide
- Locker depths of 12", 15" or 18"
- Available in single or three-wide units
- Available welded only
- Three coat hooks per opening
- Positive 2-point locking system in doors
- Available with or without legs
- Heavy-Duty acrylic door inserts

BOX C-THRU LOCKERS

Box Lockers are ideal for securely storing smaller items like purses, lunches, books, and athletic gear. Five and six-high configurations save valuable floor space in schools, clubs, government buildings, and hospitals.

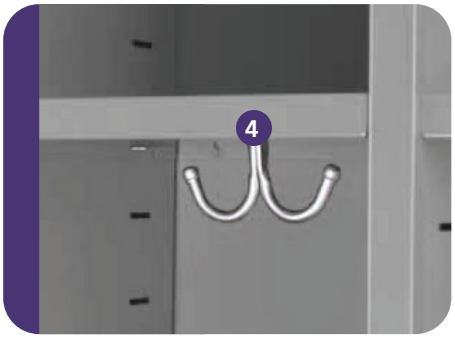
- Opening size 12"wide x 12"high
- Box depths of 12", 15" or 18"
- Available in single or three-wide units
- Available welded only
- Available in 5 and 6 tier high configurations
- Heavy-Duty reinforced Polypropylene doors
- Rugged padlock hasps
- Optional built-in lock
- Available with or without legs

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

Cubbies

1. **Heavy-Duty Body**
   All-steel welded construction provides years of reliable use.
2. **Durable Finish**
   Painted with a tough, long lasting powder-coated finish to ensure years of lasting beauty.
3. **Adjustable Shelves**
   Shelves are adjustable on 1" centers and their front edge allows for easy labeling.
4. **Coat Hooks**
   Coat hooks can be added to any locker shelf. Each coat hook can hold up to 30 lbs.

COAT HOOKS



One double coat hook can be added beneath each shelf. Each coat hook can hold up to 30 lbs. 3 hooks provided with each unit.

Note: For safety, Tennsco strongly recommends that all lockers be anchored to the floor or wall.

Cubby Lockers

Tennsco Cubbies are designed for your everyday needs. These units can be used for a broad variety of use such as supply storage, books, and children's lockers.

All Tennsco Cubby Lockers are constructed of heavy-duty steel with a durable powder-coated finish, offering long-term value.

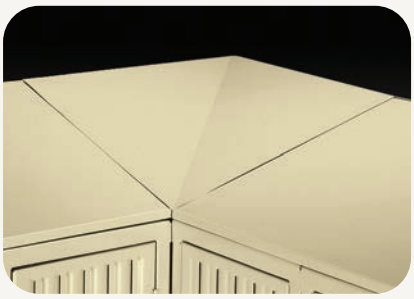
Locker Accessories

Flat Top Filler
The flat top filler is used on flat locker tops to fill the space between two locker tops or a locker top and the wall.

Sloping Top Filler
Sloping top fillers are used with sloping top lockers to fill the space between two locker tops or a locker top and the wall.

Ventilated Door
All Tennsco lockers can be ordered with ventilated doors when additional ventilation is a requirement.

Flat Top Corner Filler
Flat top corner filler is used to fill the corner space between two locker tops.

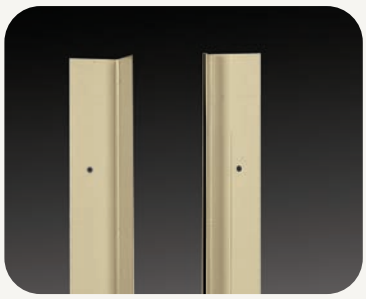


Sloping Top Corner Filler
Sloping top corner filler is used with sloping locker tops to fill the corner space between two locker tops.

Three Wide Sloping Top
Three wide sloping tops prevent unnecessary clutter and provide a clean, finished appearance. Also available in one wide top to cover single lockers.

Flat Top Boxed End Panel
Flat top boxed end panels are designed to give a finished look and a sturdier end to a row of free-standing lockers.

Sloping Top Boxed End Panel
Sloping top boxed end panels are used with sloping top lockers to give a finished look and a sturdier end to a row of free-standing lockers.



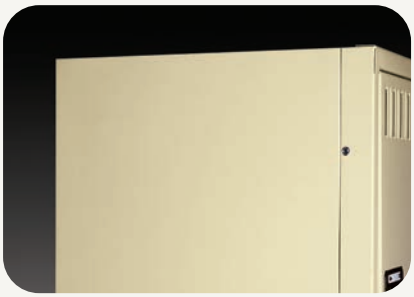
Filler Panel Frame/Corner Angle
Filler panel frames attach to locker frames to secure front filler panels. Corner angles are used in inside corners to provide a finished appearance.

Locker Accessories

Front Base/Closed End Base
Closed front bases fit between front locker legs to provide a flush, finished appearance. End bases fit between front and rear legs of a row-ending locker.

1-Wide Closed Base
Used only on lockers with no legs, the closed base is a one piece, fully enclosed, 6" tall, steel base to raise the locker off the floor. Bases include leveling feet to adjust for uneven floors.

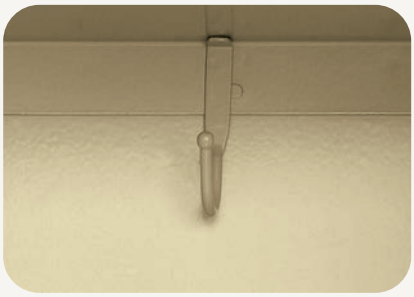
3-Wide Closed Base
3-Wide Bases are the perfect finished look when utilizing our 3-Wide lockers with no legs. The base is closed on all sides and raises the locker unit off the floor. Bases include leveling feet to adjust for uneven floors.



Locker End
Locker ends are used to finish a row and give a clean, attractive, appearance.

Locker Benches/Pedestals
A clear lacquer finish protects these 1¼" thick laminated maple benches. Heavy duty steel pedestals have an enamel finish to match your lockers. Benches are 9 ½" wide and 36" to 144" long.

Coat Rod
These painted (medium grey only) steel coat rods are ½" in diameter and are available in 9", 12", 15", 18", 21", and 24" lengths.



Coat Hook
Additional coat hooks can be added to any locker. Coat hooks can be factory welded into assembled units, if specified at time of order. Single hook or double hook available.

Shelves and Partitions
Add shelves to customize locker compartments or vertical partitions to create dual compartments in single tier lockers.

Painted Steel Recessed Cup
Our standard steel handles are painted with a black powder-coated finish and are scratch resistant.

Stainless Steel Recessed Cup
Add an extra touch of quality with our optional stainless steel recessed cup. Scratch resistant.

Manual or Automatic Locking Combination Deadbolt
Both built-in locks are masterkeyed systems with changeable combinations. The precision mechanism never needs lubricating and a stainless steel case covers the mounting bolts for security.

Grooved Key Lock
This built-in deadbolt lock features a rust-resistant steel case and a large assortment of differing keys. The grooved key lock ensures additional security. Masterkeyed systems are available.

Combination Padlock/ Masterkeyed Combination Padlock
A self-locking shackle and automatic disarranging tumblers make these locks virtually tamper-proof. Masterkeyed system provides additional control. Shackle diameter is 9/32" (7mm).

Number/Name Plates
Number plates provide order and a clean, finished look. Field-installed blank paper plates with plastic shields for custom identification come standard. Also available are field installed factory numbered aluminum plates for an additonal cost.
